Part B. CV SUMMARY (max. 5000 characters, including spaces)

Dr. Vicente Micol is the head of the research group “*Design and Development of Bioactive Molecules*” of the Miguel Hernández University comprising approx. 15 researchers focused on the biological activity and mechanism-of-action of natural compounds and their application to alleviate human chronic diseases such as cancer, obesity and non-communicable diseases using cell and animal models and human trials. The research group has a very significant scientific production and intense activity on technology transfer and services to companies belonging to areas such as food, pharma, functional beverages, nutraceuticals and dermo-cosmetics, as shown below.

Research merits:

Number of six-year research periods: 6 (5 of research and 1 of innovation and transference). Total number of publications in Web of Science: 180. **Total number of publications in Scopus: 185** (Q1 percentage: 65%). **H-index (ISI-WEB, SCOPUS): 48**; H-index (Google Academics): 57. Total citations: 6500 (3815 within the period 2016-21). Average citations/year (2016-2021): 635. I have acted as “guest editor” for different special issues on “Marine Drugs”, “Int. J. Mol. Sci.”, “Antioxidants”, “Medicines” and “Frontiers in nutrition” in the last 5 years. I have acted as a reviewer for more than 30 scientific journals.

Socio-economic impact and transfer of technology:

I am a **founding member of four spin-off companies** derived from UMH and established at the UMH Scientific Park, two dedicated to nutraceuticals and functional ingredients (Nutracitrus, SL, Mitra Sol Technologies, SL), one on dermo-cosmetics (Illice Effitech, SL) and the last on microbiome technologies (Innovation Labo SL). These four companies have captured approximately **1.3 million € from both public and private funding, and have employed 12 graduate students or PhDs in the last 15 years**. The activity of the research group have contributed to develop several final products in the functional food, nutraceutical and cosmetic sector: METABOLAID®, NUTROXSUN®, PLX® (MONTELOEDER, SL); Gama Ecotech y Endemic Biocosmética (Químicas del Vinalopó y Endemic Biotech, SL).

Teaching and Training activities:

I have been **teaching in the university for 31 years** in the graduates of Food Technology (2007-2013) and Biotechnology (2013-). I am also part of the teaching staff of the "European Master ERASMUS

MUNDUS in Translational Cosmetic and Dermatological Sciences (EMOTION)" since 2020. I have directed 28 final degree works and 12 Master final thesis. I have directed **16 Doctoral Thesis** (10 in the past ten years) and have mentored more than 75 internships for graduate students since 2006.

Additional information:

2 National Research Awards (Aquaculture in 2002 and Sports Medicine in 2009). I am **Vice Rector for International Relations** of the Miguel Hernández University since June 2015. I am part of the management team of **singular international consortia** such as: **NEUROTECHeu**, the ERASMUS+ European University of Brain and Technology, which includes eight universities across Europe (<https://theneurotech.eu/>); The Building Reliable Advances and Innovation in Neurotechnology Center (**BRAIN Center**), an industry/university collaborative interdisciplinary center founded by the Arizona State University and the University of Houston and financed by the National Science Foundation of USA, center to which the UMH group belongs as part the UMH Site focused on Neurotechnology for Obesity (<https://nsfbrain.org/>). Member (2013-2015) of "*Comité Ético y de Integridad en Investigación*" (authorized ethics committee) of Miguel Hernández University. I have the authorizations as animal researcher (category B, 2009) and project animal supervisor (category C, 2011).
